He was ordered to pay the taxed costs, but as the expense to which the prosecutor had been put went far beyond these, he was fined £100 to go towards the residue of the costs. On the payment of that sum, the plaintiff would be bound over in his own recognisances in 4 p.m.-Mitsu Bishi Mail leaves for £200 to keep the peace, and to come up for judgment when called upon.

> THE five men originally charged with assaulting Man Apan, a josshouse keeper at Ap Li Chau, Aberdeen, on the 20th January, but who were, after hearing evidence, charged with the greater crime of the manslaughter of Man Apan's child, which was said to have died through injuries received in the assault, were to-day discharged on the application of Inspector Bremner, who stated that he had no further evidence to bring against the defendants; the finding of the jury at the inquest held yesterday having precluded the charge of manslaughter being proceeded with.

THE seaman, Michael Carrol, who met with serious injuries in falling from a plank laid between the edge of the Sam Shui Po Dock and the British ship Hindostan, on Sunday evening, still lies in a very precarious condition at the Government Civil Hospital. There is now little hope of his recovery, as blood has oozed constantly from the nose and mouth since his admission; and though not issuing in so large quantities as at first, still slowly proceeds and has reduced the unfortunate man to a state of extreme debility. Carrol had been indulging freel. in liquor during Sunday, and was in an inebriated condition when the accident happened.

THE rumours which have so often been circulated concerning the changes in the Occidental and Oriental steamers on this side the water appear to gain more, definite shape, for we hear that the Adriatic and Coptic, two of the Atlantic vessels belonging to the White Star line, may soon be expected to increase the O. & O. floot on the Pacific route. These fine ships are considerably larger than the Oceanic, now in harbour; and if, as we are informed, the Belgic and Gaelic are not to be withdrawn, the increase in the tonnage on the San Francisco route will be very material, and, it need scarcely be added, of the highest quality. Considering the growing trade from and to America, and in view of the fact that facilities of communication are the surest guarantee for further expansion, the news of this intention on the part of the O. & O. Co. may well be received with satisfaction. It is said that one of the this port early in February, say in a week

WE some time since announced that the

office of Registrar of the Supreme Court

here had been offered to a barrister-at-law

(Mr Hulme), and expressed a belief that the gentleman named had accepted the post. As nothing, however, had of late been heard concerning the appointment, it was evident that some hitch had occurred; and we now learn that private advices have been received here to the effect that the Registrarship has been accepted by Mr Edward James Ackroyd, who appears to have been filling a somewhat similar appointment in the Supreme Court of Mauritius. Not long ago we drew attention to the short-handedness of the Supreme Court staff; and as Mr Barff will, it is presumed, have to go back to the Post Office to take charge on the departure of Mr Lister, some fears were entertained that this would throw too much work on the limited staff. We now learn that Mr Ackroyd, who sails from Mauritius for Hongkong direct, will be here in about a month's time, so that the new Registrar may therefore be expected to be fairly installed in office before the pending changes are made. Mr Sangster, who has carried on the duties of Registrar so satisfactorily since the unfortunate persecution of Mr Gibbons culminated in that officer sanspension, has more than earned his leave of absence; and it is fortunate that the new Registrar will be able to profit by Mr Sangster's intimate knowledge of the office work ere the present acting Registrar goes home. Mr Ackroyd's record of serviceswhich goes back nearly thirty years-is American mail, left Yokohama for this port thus given in the Colonial Office List for

The jury returned a verdict of accidental death by drowning.

Whispers have not unnaturally been heard recently to the effect that many Chinese merchants and traders are of opinion that the English law which compels the specific performance of a contract, or awards damages for failure to carry out a specified contract, falls rather roughly a on purchasers of property. In the somewhat spasmodic and feverish agitation with which the recent rise in property values reached its unhealthy climax, many Chinese endeavoured to turn a dollar into their own pockets by transferring property in the hope | higher culture and its followers with him. that they would sell at an advance. It is asserted that many respectable Chinese who are not largely interested personally in these land and property transactions are of opinion that the law should be amended so as to provide for both seller and purchaser sharing in the loss caused by a fall- from after hold to tip ship and shift proing market. The original argument advanced by the Chinese is this, that, when a man sells a house for say \$50,000, and gets \$5,000 bargain money, he ought to be quite hatisfied with the profit which the forfeiture of the bargain money represents to him. And the higher ground which the so-called disin. THE Poking correspondent of the N.-C. Daily News writes :- The winter solstice occurred the other day, and it was remarkable in this respect—that no executions took place immediately before it, as usual. This was not because there were no criminals to execute, but because the Imperial elemency had been extended to them by a late Decree, on account of the recovery of the Western Empress. The Emperor proceeding to the Temple of Heaven the night preceding the solstice, would not be compelled, among the other official state-

ments of his stewardship for the past year, to render to the Supreme Ruler-whose Son he is-the usual list of those whose lives he had cut short by reason of crimes. This close connection between the Governor of a nation and the Supreme Ruler on high is a healthy one, and may teach rulers to govern with justice tempered with mercy. It is said to be the fault of Confucianism as a system of morality and political economy that the highest link in the chain is not fixed in Heaven, but merely goes up to the Father of the Family and the State; but here in the Worship of Heaven the Emperor stands closely related to the Supreme Being. And we know that at the end of the year there is the ascent to heaven of the Kitchen God, who is supposed to render up an account of the doings of the family within whose precincts he has resided for the past twolve months. So that here too. is a link of connection—a ladder leading from Heaven to Earth-between the Su-

Although the outrages reported during the last week are not'so numerous as they have been during some provious weeks. they are many of them of a very serious character. Among them is one murder of a peculiarly atrocious and daring kind committed for no other reason than that the victim had paid his rent in spite of a warning not to pay it, and, what is more, committed within two hundred yards of the station of a detachment of police in charge of a party of Emergency men. Another especially brutal crime was the flaying alive of an unfortunate goat belonging a woman who had in some way incurred Credits. arson, and rick-burning. Armed bands Shanghai, demand, are going about at night through Clare, Korry, and Tipperary, firing shots into Gold Leaf, 991 fine houses and so intimidating the cooupants Sovereigns, that they fear even to report the facts to the police. The organisation against the payment of rents is becoming still more formidable, and it is regarded as much of pay rent. The Government are employing - Mr Holmes, of Messrs Stephens & Holmes, oll the forces at their disposal to maintain rights of property. Every facility is afforded and legitimate help is given to landlords who are obliged to resort to extreme measures to recover their rents, and a conment is about to take active measures with

unnouncement to that effect is to be made in the Gazette; but as no such declaration has appeared, it is presumed that some of the members of the Ladies Land League may be arrested under the Protection Act and sent to Grangegorman Prison. The reports receive some confirmation in the issue of a circular by the Inspector-General of The Publishers' Circular announces that a Constabulary, which intimates that the proincludes women as wall as mon, and that Among the passengers who have arrived the premotion of the objects and purposes prosecuted in the ordinary way. THE CHINA REVIEW.

TITHE widely-expressed regret at the discontinuance of Notes & Queries on Ohina and Japan, has induced the publishors of this journal to issue a publication similar in object and style, but slightly modified in certain details.

THE CHINA REVIEW, or Notes and Queries on the Far East, is issued at Intervals of two months, each number containing about 60 octave pages, occasionally illustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, and extra matter.

The subscription is fixed at \$6.50 postage paid, per annum, payable by non-residents in Hongkong half-yearly in advance.

The publication includes papers original

selected upon the Arts and Sciences. Ethnology, Folklore, Geography, History, Literature, Mythology, Manners and Customs, Natural History, Religion, &c., &c., of China, Japan, Mongolia, Tibet, the Eastern Archipologo and the "Far East" generally. A more detailed list of subjects upon which contributions are especially invited is incorporated with each number. Original contributions in Chinese, Latin, French, German, Spanish, Italian or Porare admissible. Endeavours are made to present a resums in each number of the contents of the most recent works bearing on Chinese matters. Great attention is also paid to the Review department.

Notes and Replies are classified together as "Notes" (head references being given, when furnished, to previous Notes or Queries), an are also those queries which though asking for information, furnish new or unpublished details concerning the matter in hand. It is desirable to make the Queries proper as brief and as much to the point as possible.

The China Review for July and August, 1875, is at hand. It says that forty-two essays were sent in to compete for the best paper on the advantages of Christianity for the development of a State. All our learned societies should subscribe to this scholarly and enterprising Review. It is a sixty paged, bi-monthly, repertory of what scholars are ascertaining about China. The lecture on Chinese Poetry in this volume is alone worth the price of the Review. Ad. 113. E. A. and China Pelegraph Co., and dress China Review, Hongkong. -- Northern Christian Advocate (U.S.)

Trubner's Oriental Record contains the following notice of the China Review :- " This is the title of a publication, the first number of which has lately reached us from Hongkong, where it has been set on foot as in some respects a continuation of Notes and Queries on China and Japan, the extinction of which useful serial a year or two ago has been much regretted in Europeans well as in China. The present publication judging by the number now before us, is infended to occupy a position, as regards Chiral and the neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chines literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided, extremely desirable : and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Uninese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarship is now assiduously cultivated, and who are severally represented in the first number of the lieview by papers highly creditable to their respective authors. In a paper on Dr. Legge's She King, by the Rev. E. J. Eitel, to which the place of honour is deservedly given, an excellent summary is presented of the chronological problems and arguments involved in connexion with this important work. Some translations from Chinese novels and plays are marked by both accuracy and freshuess of style; and an account of the career of the Chinese poet-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was displayed during the lifetime of its predecessor in the field, and that the China Review may receive the support necessary to insure its continuance. The publication is intended to appear every two months, and will form a substantial octavo magazine,

## THE CHINESE MAIL.

This paper is now issued day. The subscription is fixed at Four Dollars, per annum delivered in Hongkong, or Seven Dollars Fifty Cents including postage to Coast ports.

It is the Arst Chinese Newspaper ever issued under purely native direction. The chief support of the paper is of course from the native community, amongst whom also are to be found the guarantors and securities necessary to place it on a business and legal footing. The projectors, basing their estimates

pon the most reliable information from the various Ports in China and Japan,from Australia, California, Singapore, Penang, Saigon, and other places frequented the Chinese, - consider themselves justified in guaranteeing an ultimate circulation of between 3,000 and 4,000 copies. The advantages offered to advertisers are therefore unusually great, and the foreign community generally will find It to their interest to avail themselves of tl am.

The field open to a paper of this description—conducted by native efforts, but progressive and anti-obstructive in toneis almost limitless. It on the one hand commands Chinese belief and Interest while on the other it deserves every aid that can be given to it by foreigners. Like English journals it centains Editorials, with Local, Shipping, and Commercial News and Advertisements. Subscription orders for either of the above may be sent to
